PTS Establishes Another SLiM Field Trial with Eskom/Trans-Africa Projects (Eskom/TAP)

PTS and Eskom/TAP are establishing another SLiM field trial in the TAP 132kV system. TAP is a joint venture between Fluor Daniel and Eskom-South Africa, one of the largest utilities in the world. PTS CEO, Roger Gray, said, “this is a great opportunity for PTS to further prove the capabilities of SLiM and PTS welcomes the opportunity to work with Eskom/TAP because they are known as a leader in evaluating and deploying transmission technologies like SLiM.”
